

General Instructions For Simpsons Pinball Machine Mods

(Not all of these items may have come with the set you purchased)

Please note, not all games will have the same exact procedures due to how games are assembled and how people have made changes to them over the years.

Cooling Towers

Notes:

- Before securing each cooling tower, make sure they are in the proper spot in which the atomic symbol is facing forward and the light connection is making good contact.
- Each cooling tower is labeled on the plug - F (front), R (top right) and L (top left)

Thank you for your purchase and I hope you enjoy your game and my mods. If you have any questions, problems or suggestions for this or other mods, please email me directly at
